SUMMARY

As a Computer Engineer, I specialize in Fullstack development and Android application development using Flutter. My technical toolkit includes strong Machine Learning and AI capabilities, Additionally, I bring experience in game development, I'm committed to lifelong learning and pushing the boundaries of technology.

PROJECTS

SanctuarAI:

- Developed an AI powered emotional tracking app analyzing user interactions with people around them.
- Implemented weekly insights and mood reports based on user activity data.

CarRoyal:

- Built a full car rental website with booking, integrated payment gateway, chatbot and more features.
- Developed admin dashboard modules and user panel flows for real time reservations.

SparkFlow:

- Built a productivity app with offline first task storage using Hive.
- Implemented local notifications for daily reminders and improved task management experience.

AI Snake Game:

- Designed a gesture controlled Snake game using hand tracking and CV models.
- Implemented real time gameplay control through webcam based gesture detection.

EXPERIENCE

Software Engineering Intern at Demir Çelik Institution – Karabük, Turkey (Jul.1.2024-Aug.26.2024)

- Contributed to developing the company website using Go and Fiber framework.
- Participated in the frontend and backend architecture, routing, and internal system integration tasks.
- Collaborated with senior engineers to implement efficient server-side logic.
- Being exposed to the working environment where deadlines and meetings are essential.

EDUCATION

-Karabük university Bachelor of Computer Engineering Karabük, Türkiye (2020-2024)

TECHNICAL SKILLS

Programming Languages: Go, PHP, Dart, C, C#, SQL, JavaScript, Python

Frameworks & Tools: Flutter, React, NextJS, Tailwindcss, Prisma, Laravel, Fiber, Stripe, Firebase, Firestore, Unity, Express Js, MongoDB

Specializations: Fullstack development, Machine Learning, Data Mining

Core Skills: Project Management, Time Management, Teamwork

LANGUAGES

Arabic: Native

English: Full Professional Proficiency

Turkish: Professional Working Proficiency.
